

IDB-BISEW IT Scholarship Project

Round 51

Monthly Evidence (Oct, 2018)	Modules: Web Publishing	
	Full Marks: 50	Duration: 1 hour
	Date:	

1. Create an online form to collect trainee's data with the following fields: 25

- A. Input box for (i.) Name (ii) Contact
- B. Text Area for (i) Remarks
- C. Radio Buttons for (i) Sex (Male or Female identification)
- D. Checkbox for selecting Multiple Courses Like NT, IAD, DDD,ESAD etc
- E. Drop down List for selecting location Like, Banani, Dhanmondi, Mirpur etc.
- F. Button for submitting the form.

Write Script with required functions to show data in a formatted way in a new window when user click submit button filling the form.

2. Write a program which will test user email address. When the script 10
executes, a prompt asks user to enter email address. If the script logic finds '@' and
'.' symbols in email address that is entered then the output will be "Email Address is
correct" otherwise "Email Address is Wrong".

3. Find out factorial value of 5 ? 10

4. Oral 5
